

Attorney's Docket No.: 10225-023001

*cf
concl.*
applying image analysis operations to a region of the
source medical image corresponding to said region of the
decompressed medical image at the first location; and

compressing said region of the source medical image at a
second compression level at the first location as a function of
the region information, wherein the second compression level
results in less information loss than the first compression
level.
